Flag Raising Ceremony

- April is National Donate Life Month. This month-long observance was created to highlight the importance of donation and encourage our community to register as organ, eye and tissue donors to save and enhance lives.
- This year the 2022 National Donate Life month theme is “Bee A Donor”.
- Donate Life America was inspired by the vital role that bees play in sustaining life. Bees are a small but powerful life force, working together with dedication, collaboration and a strong sense of community.
- Today is Donate Life Flag Raising Day. The Donate Life Flag is raised and flown to honor those who have selflessly given the precious gift of life. Today we proudly raise our flag at 1:08PM in honor of the impact 1 donor can have on the lives of up to 8 people in need of a life-saving organ transplant. Join us in a moment of silence as we remember our donors and their families.
- In 2021, XXX had XX donors that resulted in XX lives saved.
- More than 106,000 Americans are awaiting a life-saving organ transplant. More than 4,800 of those individuals reside in Florida.
- No matter your age, pre-existing health conditions, lifestyle, religion, etc. you can register to save lives through organ and tissue donation.
- Approximately 17 people die every day while awaiting a lifesaving transplant and a new name is added to the UNOS waiting list every 9 minutes.
- If you are not a registered donor, please consider registering today by visiting www.DonateLifeFlorida.org.
